for good job!

**Il vostro comfort al lavoro?
Ci stiamo lavorando!**

QUASI UN SECOLO DI STORIA

Rica Lewis nasce nel **1928** a Marsiglia come marchio di abbigliamento da lavoro, fornitore dell'esercito francese.

Il denim, inizialmente utilizzato come tessuto da lavoro, ha portato Rica Lewis a diventare il primo jeans maker in Francia e uno dei primi in Europa.

Il legame tra denim e abbigliamento da lavoro è nel nostro DNA.

LE PERSONE AL CENTRO

Creiamo i nostri prodotti pensando ai nostri **consumatori**. Abbiamo un profondo rispetto per la nostra eredità e un'attenzione particolare per il design bello e funzionale.

LEGITTIMITÀ, AFFIDABILITÀ, STILE, INNOVAZIONE

Qualità senza compromessi, fiducia consolidata, e un **design** che fa sentire tutti parte di una comunità inclusiva.

ALMOST A CENTURY OF HISTORY

Rica Lewis was born in **1928** in Marseille as a workwear brand, supplying the French army.

Initially used as workwear fabric, denim propelled Rica Lewis to become the first jeans maker in France and one of the first in Europe. **The connection between denim and workwear is in our DNA.**

PEOPLE AT THE CENTER

We create our products with our **consumers** in mind. We deeply respect our heritage and focus on beautiful, functional design.

LEGITIMACY, RELIABILITY, STYLE, INNOVATION

Uncompromising quality, established trust, and a **design** that makes everyone feel part of an inclusive community.

We're working on your comfort at work!

L'universo del workwear ha una lunga storia da raccontare!

● TUTTO HA INIZIO NEL 1873

I pantaloni in denim vengono scelti dalla maggior parte dei lavoratori dell'epoca - in particolare minatori, ferrovieri e cowboy - per la robustezza e la comodità.

● NEL 1906 LA MODA CONOSCE UNA SVOLTA...

Durante la rivoluzione industriale, le condizioni di lavoro nelle fabbriche sono pericolose: viene portata alla luce la necessità di abbigliamento da lavoro sicuro e confortevole.

● NEL 1928...

Nasce a Marsiglia Rica Levy International® che produce abbigliamento per l'esercito e workwear.

● NEL 1947 RICA LEWIS COMINCIA A SCRIVERE LA SUA LEGGENDA...

Rica Levy International® lancia i jeans in blue denim, capo icona del workwear. Nasce il brand Rica Lewis® Jeans.

There's a lot behind workwear!

● IT ALL STARTED BACK IN 1873.

Denim canvas trousers were appreciated by most miners, cowboys and railway workers for being hardwearing and comfortable. Workwear was born.

● FROM 1906, FASHION TOOK A PROFESSIONAL TURN...

During the industrial revolution, Working conditions in factories are dangerous, there's a need for safe and comfortable workwear.

● IN 1928...

In Marseille Rica Levy international produced clothing for the army and workwear.

● IN 1947 RICA LEWIS STARTS WRITING ITS LEGEND...

Rica Lewis designed its first pair of blue jeans, which would fast become an emblematic workwear garment.

Le nostre certificazioni parlano per noi

Our labels say something about us

MARCHIO CE

Garantisce la conformità agli standard di salute, sicurezza e tutela dell'ambiente.

DPI CATEGORIA I

I nostri indumenti sono DPI destinati a proteggere la persona da rischi di danni fisici di lieve entità, come stabilito dal Decreto Legislativo 475/92, che classifica i dispositivi di protezione individuale.

UNI EN ISO 20471 CAT. 2

Questa certificazione accompagna i nostri indumenti, in grado di segnalare la presenza di chi li indossa grazie al materiale fluorescente e alle strisce riflettenti.

EN ISO 13402-3:2017

Questa certificazione sostituisce la UNI EN 13402-3:2013. Descrive un sistema di misurazione delle taglie basato sulle dimensioni del corpo.

CE MARKING

It guarantees compliance with health, security and environmental protection standards.

PPE CATEGORY I

Our garments are PPE designed to protect the user from the risk of minor physical harm, in compliance with Legislative Decree No. 475/92, which classifies personal protective equipment.

UNI EN ISO 20471 CAT. 2

This label accompanies our garments that signal the presence of their wearer thanks to fluorescent material and reflective strips.

EN ISO 13402-3:2017

This label replaces UNI EN 13402-3:2013. It refers to labelling based on body measurements.

← PERSONALIZZAZIONE SU MISURA

Offriamo un servizio ad hoc di brandizzazione degli indumenti per personalizzare l'abbigliamento da lavoro con i colori aziendali di chi lo indossa. Questo segno distintivo può essere realizzato sotto forma di ricamo o di applicazione su alcuni prodotti delle nostre collezioni RICA LEWIS Workwear.

← CUSTOMIZED PERSONALIZATION

We offer a bespoke garment branding service to personalise workwear with the colours of the company the wearer works for. This branding can be embroidered or a transfer on certain products in our RICA LEWIS Workwear collections.

Il nostro know-how al vostro servizio

Our know-how at your service

Fibreflex®

LE PERFORMANCE NON FANNO UNA PIEGA

Realizzato con filati con anima elastica combinati con altri materiali come il cotone o il poliestere che ne garantiscono la resistenza, questo tessuto stretch offre un'elasticità senza pari, che resiste a deformazioni e pieghe.

THERE'S NO DOUBT ABOUT PERFORMANCE

Made from elastic core yarns combined with other materials such as cotton or polyester that guarantee its robustness, this stretch fabric offers an unfailing elasticity that resists deformation and wrinkling.

YKK®

LE MIGLIORI CERNIERE DEL MONDO

Le cerniere sono un elemento chiave dell'abbigliamento da lavoro. Utilizzate più volte nell'arco della giornata, devono garantire maneggevolezza e resistenza anche a lungo termine. L'azienda giapponese YKK® si avvale di una tecnologia all'avanguardia per garantire prodotti di alta qualità, in grado di resistere alla prova del tempo senza mai danneggiarsi.

THE BEST ZIPS IN THE WORLD

Zips are key element in work clothes. They are used several times a day and must be easy to use and just as hard wearing over time. The Japanese company YKK® uses state-of-the-art technology to ensure premium products that will last for years without ever seizing up.

Coats®

PROMESSA DI ROBUSTEZZA SENZA PELUCCHI

Utilizziamo filati industriali prodotti da Coats®, leader mondiale del settore. Il loro filo combina un'anima di fili di poliestere ad alta resistenza con una copertura in cotone che garantisce una tenuta senza pari e cuciture adatte a modelli con criteri esigenti di resistenza e durevolezza.

LINT-FREE PROMISE OF STRENGTH

We use industrial yarns manufactured by Coats®, a world reference in this field. Their yarn combines a core of high-strength polyester filaments with a cotton cover that ensures unequalled strength and seams adapted to designs with demanding criteria for strength and durability.

AMBIENTE, FIDUCIA E SICUREZZA DEL PRODOTTO

OEKO-TEX® STANDARD 100 è un sistema di test e certificazione indipendente e uniforme a livello globale per prodotti tessili grezzi, semilavorati e finiti in tutte le fasi di lavorazione, nonché per i materiali accessori. Quando un articolo tessile soddisfa i criteri, può essere contrassegnato con l'etichetta OEKO-TEX® STANDARD 100, permettendovi di comunicare ai vostri clienti in tutto il mondo che i vostri prodotti tessili sono stati testati per sostanze nocive.

Ogni singolo componente del capo è testato da un laboratorio accreditato: il tessuto, i fili, i bottoni, le zip, le stampe ...

Bottoni e occhielli
Buttons and eyelets

Cerniere
Zippers

Accessori
Accessories

ENVIRONMENT, TRUST AND PRODUCT SAFETY

OEKO-TEX® STANDARD 100 is a worldwide consistent, independent testing and certification system for raw, semi-finished, and finished textile products at all processing levels and accessory materials used. If a textile article meets the test criteria, it can be awarded the OEKO-TEX® STANDARD 100 label. With OEKO-TEX® STANDARD 100, you let your customers worldwide know that your products have been tested for harmful substances.

Every single component of the garment is tested by an accredited laboratory: fabrics, threads, buttons, zips, prints...

Precursori dell'eco-friendly

PROGETTIAMO PRODOTTI PIÙ SOSTENIBILI

Nel 2006 siamo stati i primi a proporre dei jeans realizzati in cotone equo e solidale a marchio Max Havelaar. Impegnati a preservare le risorse naturali, abbiamo messo a punto Acquasave, uno specifico processo di lavaggio naturale e non inquinante che stiamo sviluppando per poterlo utilizzare sul 50% della nostra produzione entro il 2025. Al contempo, cerchiamo di impiegare materiali che rispettino l'ambiente: le nostre grucce sono realizzate interamente in plastica riciclata e riciclabile. I nostri packaging sono in cartone riciclato e riciclabile per limitare la produzione di rifiuti.

PROMUOVIAMO UN CONSUMO RESPONSABILE

La nostra priorità è realizzare prodotti senza tempo, da indossare in tutte le stagioni, grazie ai quali possiamo vantare un basso tasso di reso (il 7% rispetto a una media del 15% dell'intero mercato tessile).

STABILIAMO UN RAPPORTO PRIVILEGIATO CON I NOSTRI DISTRIBUTORI

Le nostre partnership si basano su rapporti di fiducia duraturi e sulla condivisione di valori responsabili.

PRESTIAMO ATTENZIONE AL BENESSERE DEI NOSTRI DIPENDENTI

Per evitare che i nostri dipendenti portino grandi volumi di campioni agli incontri commerciali, mettiamo a loro disposizione strumenti digitali, con una potenziale riduzione del 70% dei volumi trasportati.

COMBATTIAMO LA CORRUZIONE

Selezioniamo produttori e partner che rispettino i nostri indicatori RSI e di far loro sottoscrivere una carta d'impegno, in conformità con la certificazione BSCI (Business Social Compliance Initiative).

SOSTENIBILI E IMPEGNATI, CON PROVE A SUPPORTO

- Controllo rigoroso delle emissioni di CO₂
- Gestione pulita dei rifiuti o riciclo
- Nessun materiale tossico utilizzato
- Consumo energetico controllato
- Utilizzo ridotto delle risorse

Eco-friendly ahead of our time

WE MAKE MORE SUSTAINABLE PRODUCTS

As early as 2006, we were the first to offer jeans made in Max Havelaar sustainable cotton. Out of a desire to protect natural resources, we perfected Acquasave, a special natural and non-polluting fading process that we are developing in order to use it on 50% of our production by 2025. At the same time, we strive to use environmentally-friendly materials: our coat hangers are all made from recycled and recyclable plastic. Our packaging is designed in recycled and recyclable cardboard to reduce waste.

WE ENCOURAGE RESPONSIBLE CONSUMPTION

Our focus is timeless product designs that can be worn in all seasons, thanks to which we have a low rate of return (7% versus 15% on average across the entire textiles market).

WE DEVELOP A SPECIAL RELATIONSHIP WITH OUR DISTRIBUTORS

Our partnerships are based on lasting, trusting relationships and jointly held values.

WE ENSURE THE WELL-BEING OF OUR EMPLOYEES

To avoid employees carrying considerable volumes of samples to sales meetings, we provide them with digital tools, which potentially reduce the volume they need to transport by 70%.

WE FIGHT CORRUPTION

We ensure that we only select manufacturers and partners that respect our CSR values and ask them to sign a commitment charter which complies with BSCI (Business Social Compliance Initiative) certification.

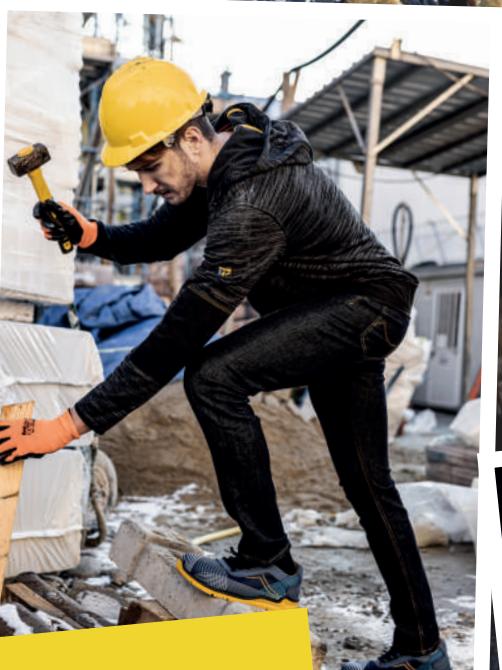

RESPONSIBLE AND COMMITTED, WITH SUPPORTING EVIDENCE

- Strict controls of CO₂ emissions
- Clean waste management or recycling
- No toxic material used
- Controlled energy consumption
- Reduced use of resources
